## SUMMARY

### Summary (based on whitepaper)

Developed by the Tendermint team since 2016, Cosmos is a highly forward-looking cross-chain blockchain project that aims to achieve a “blockchain-based internet” based on token transfer and to construct a deeply integrated token economy ecosystem. Cosmos Hub is the first cross-chain hub of the Cosmos ecosystem, and ATOM is the native staking token of Cosmos Hub, which can be used for spam prevention, staking dividends, and community management voting.
